Tendering for Phishing Services

Take your team from minnows to shoal leaders in cyber security

Be Prepared. Be Time Rich.

IT Team - We help you get on top of security with phishing protection. We remove the work burden, deal with suspicious emails, respond more quickly to incidents and improve ongoing security awareness.

HR/Learning & Development - Our anti-phishing training is ready to go and flexible to meet the needs of each employee wherever they are located. We can tailor to your company branding and requirements.

...Keep everyone on the **team safe, alert and happy!**

Be Informed. Be Secure.

Employees - Fun and engaging anti-phishing training, awareness and tools to help you spot phish. Your efforts in stopping threats will be making a real contribution to the company culture and business success - and also help you stay safe outside of work.

Executives - A 360 degree anti-phishing service that reduces the risk of financial loss through reduced productivity, downtime and data breaches. You can improve your phishing protection and save costs compared to having your IT team or non-specialist consultants work on phishing prevention.
